WORK EXPERIENCE

Administrative Virtual Assistant — Freelance

September 2026 - Present

- Provided administrative support through practical projects involving task management, scheduling, data organization, and workflow coordination, helping to keep tasks structured and deadlines visible.
- Created and maintained task trackers and project boards using Notion, ClickUp, Trello, and Asana to organize responsibilities, monitor progress, and improve task visibility.
- Managed practical scheduling exercises using Calendly and Google Calendar, coordinating appointments and maintaining organized calendars.
- Organized documents, files, and business information using Google Workspace and Microsoft Office, ensuring information was structured and easily accessible.
- Created automated workflows using Zapier to streamline repetitive administrative processes, while demonstrating strong attention to detail, time management, organization, and adaptability.

Junior Operator Intern

May 2024 - October 2024 NNPC , Warri

- Assisted with monitoring and recording daily operational readings at a gas processing plant, supporting accurate tracking of plant conditions and activities.
- Supported routine plant operations and monitored equipment performance under supervision, contributing to safe and efficient plant operations.
- Prepared and maintained daily and monthly operational reports, ensuring relevant operational information was properly documented and available for review.
- Monitored methane gas operations and communicated relevant observations to plant personnel, supporting timely awareness of operational conditions.
- Followed HSE procedures, PPE requirements, and workplace safety guidelines while collaborating with plant operators and team members to maintain safe working practices.

Sales & Customer Service Assistant

2024 - Present

Divine Bar

- Provided friendly and responsive customer service by attending to customers, responding to enquiries, and ensuring their requests were handled promptly.
- Managed customer orders and basic sales transactions accurately, contributing to smooth service delivery and efficient daily operations.
- Maintained accurate records of daily sales and supported the organization of routine business information for easier tracking.
- Assisted with stock monitoring and product restocking, helping maintain product availability and support uninterrupted service.
- Supported the overall day-to-day operations of the business by maintaining an organized and welcoming environment and working efficiently during busy periods.
